

MONEY AND COMMERCIAL.

Financial Affairs.
In financial circles yesterday, almost everything remained as it was reported on Monday. Money was quiet and the market easy generally, at 100 1/2 per cent. for first-class paper, the regular rate being 100 1/4 per cent. There were numerous calls for currency by their depositors; but others observed no difference from last week in the amount of the checkings, which continue light for the season.

Eastern Exchange was the same as it had been for two weeks previous—firm at 7 1/2 buying and 7 1/4 premium selling; the supply being still kept up by the issuing of Banknotes.

Gold was as quiet as ever at 154 1/2 and 1/4 buying and selling; the local demand still being insignificant. New Orleans Exchange remained very dull and uncertain. Money unchanged.

Flour was remarkably dull yesterday and rates were nominal at \$5 05 1/2 to 10 for superfine; the entire sales being about 50 barrels extra and family brand at \$5 20 to \$5 25.

Whisky was dull, and 1/2c lower; about 1,750 bbls. being disposed of at 18 1/2c. Groceries were without change and steady.

Provisions were unchanged, and bulk prices for various commodities, such as sugar, coffee, and other goods, were steady.

Hogs were active yesterday, and largely offered on Chicago at previous prices, \$5 50 for December, November and October delivery. Few were sold for the farmer, but for the latter we presume no less than 4,500 to 5,000 were disposed of to-day at \$5 50 per hundred.

The following are the comparative New York Cattle market tables of the trade of the port for the past week and since January 1:

	1898.	1899.	1900.
Dry Cattle	12,225,000	12,225,000	12,225,000
General mch. cattle	1,410,000	1,410,000	1,410,000
Total for week	13,635,000	13,635,000	13,635,000
Previously reported	12,225,000	12,225,000	12,225,000

EXPORTS OF PRODUCE AND MERCHANDISE.
For the week ending Oct. 12, 1906, the following were the exports of produce and merchandise from New York:

	1898.	1899.	1900.
Wheat	1,225,000	1,225,000	1,225,000

Other goods	1,410,000	1,410,000	1,410,000

Monday's New York Tribune thus speaks of Saturday's Money matters:
The buyers of stocks a few days since, at the low prices established before the recent election, were selling the market at a profit of 100 per cent. The higher the market went, the more they sold, and the more they sold, the more the market went up.
